USB 3.0
ALL IN ONE
card reader

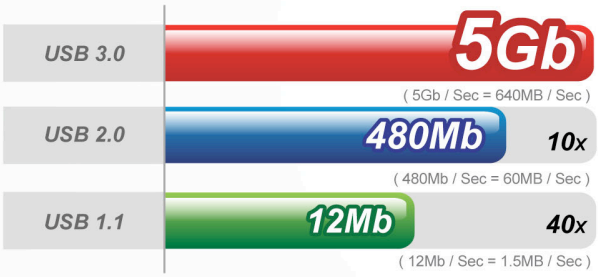
• 5 card slots can support all main stream flash cards

Designed to accommodate all mainstream memory cards, the ALL IN ONE card reader is highly compatible and reliable. Containing five card slots for simultaneous read and write, it is equipped to deal with even the latest high speed SDXC UHS-1 memory card. Supporting Ultra DMA mode 7, the ALL IN ONE card reader runs on CF600X high-speed memory cards at their fastest capacity.

• Ultra fast transfer speeds



ALL IN One outstanding read/write speed is coupled with the latest USB 3.0 interface and is backwards compatible with USB2.0. The USB 3.0 interface features a 5 Gb/sec bandwidth which is 10x the bandwidth of a USB 2.0 interface. It is the ultimate link between high-performance memory cards and storage devices for professional-level photographers.

Features

- Compatible with USB3.0, USB 2.0 devices
- Support 5Gb/s super-speed, 480 Mb/s high-speed, and 12 Mb/s full-speed transfer rates
- Five card slots that can read and write simultaneously
  - CF
  - XD
  - M2/micro SD/SDHC/SDXC
  - SD/MMC/SDHC/SDXC
  - MS Pro/MS Duo/MS Pro Duo/MS Pro HG/MS XC Support new spec card & capacity
  - SDXC UHS-I: upto 2TB
  - MS Pro HG/MS XC: upto 32GB
  - CF / Ultra DMA mode 7
- LED indicates the usage status
- With 50cm USB3.0 cable
- 2-year warranty

Specifications

- Dimension：73 x 50 x 13 mm
- Weight：55g (excluding USB transmission cable)
- Support OS: Windows 2000 SP4,Windows XP SP3,Windows Vista Home Basic (32Bits),Windows Vista Ultimate (64Bits),Windows 7 Ultimate (32Bits),Windows 7 Ultimate (64Bits),Linux Fedora 11 (kernel 2.6.X),Mac OS 10.2.8 or later, Linux Kernel 2.6.30 or later
  *Windows XP (SP1) and 2000 do not support SDXC format (exFAT format).
  * * Mac OS X 10.6.5 or later support exFAT format.
- Operating temperature：0°C ~ 60°C
- Storage temperature：-20°C~ 70°C
- Color: white
